Route 2: South Arlington Weekend Schedule

How to Read the Schedule

1. Match the numbered circle on the map to the columns of times with the same number to see when the bus serves that location (these locations are called timepoints).

2. To determine when the bus serves a stop, compare the different timepoints, look at where it is due at the timepoint before your stop, and imagine the timepoints after your stop, and you can estimate when the bus will arrive. PM times are bold. Always be on your stop schedules ready.

3. This symbol indicates transfer points. Routes serving a transfer point are indicated at the top of the time schedule, just above the name of the stop.

4. Please Note: No problem! You can set up alerts for route you ride.

To determine when the bus serves a location, match the numbers on the map to the numbers on the times.

How to Read the Schedule
